Turning ideas into images, and images in reality...

**Marco Romero 3D Design** is a studio specialized in professional 3D visualizations and Virtual Reality Simulations developments. Autodesk 3Ds MAX® Authorized Developer, VR Original Content Developer under official affiliation of VRWorks™ and GameWorks VR™ Registered Developer Program by NVIDIA, and also in partnership with "Samsung Developer program".

Romero is 3D Certified Professional Designer, CAD design proficiency in AutoCAD® since 1995, 3Ds MAX® Certified Professional Designer and Authorized Developer by Autodesk (ID: DEVR748). Currently his work has focused on 3D design applied to new technologies of Virtual Reality with high-end hardware (Oculus Rift | HTC Vive). His work has been featured in newspapers, has published articles in journals of Architecture and Computer Graphics, as well as several awards on websites dedicated to CAD.

We are known for the quality of our work, professional project management, and competitive pricing; where highlights projects for the Oil and Gas industry, Medical & Healthcare, as well as several projects Architecture, Engineering and Real Estate Industry.

Our studio offers wide variety of visualization services to its clients - everything from architectural and product visualizations to Virtual Reality and 360 degree panoramas. We are architecturally trained, so unlike many of our competitors we have an in-depth understanding of what our clients are looking to achieve for VR.

See how is your project going to look like long before it is finished! By obtaining VR visualizations you can save time and significant resources, get an idea of the project and attract customers.

We have the experience and knowledge, software and high end hardware that allow to develop your order on record time. We strive to provide the highest level of service. We will work with your specifications, content and desires to create the best product and deliver the highest level of service.
